ENGLISH (BÉARLA)

1. **Procedural Writing** tells someone how to do something. For example, how to make a ham and cheese sandwich, how to play badminton, how to draw a penguin or how to make silage.

For procedural writing, you need ingredients or equipment and a method (how to do it).

I have included an example below.

Rules:

- You should **list** the ingredients or equipment required. If you are making a cake, you use **ingredients**. If you are playing badminton, you need **equipment**.
- The sentences usually begin with an imperative (bossy) verb – put, pour, lift, strike, etc.
- You can also add adverbs such as carefully, slowly, etc.
- Number each step in the method section.

Activity: I want you to pick one of the topics above or one of your own and write the instructions or procedure.

Procedure (Instructions)

Example

- 1/2 glass milk
- 1 banana
