The children in Charlie's class are studying transport. Their teacher has arranged an outing to a transport museum. In the afternoon, the children get to ride on a steam train. They are very excited. They all climb into the carriage. The train starts chugging, "ch, ch, ch, ch." The train goes faster, "ch, ch, ch, ch." Then steam comes out of the funnel, and the whistle blows. "Choo! Choo!" The next day at school, they all pretend to be trains, going, "ch, ch, ch, ch." They chuff around, pretending to stop at lots of different places so the passengers can get on and off.
